Dear Parents,

As part of our extended communication systems to parents and engaging the community in education, we are about to launch our school Facebook page (Facebook is a public social media domain). The purpose of this page is to share all the wonderful things that your children are learning about and are engaged in. This may take the form of photos, video or sound recordings of various aspects of school life. Please complete the form below giving permission for your child to be included and return to school as soon as possible.

Regards

Cherie Kelly
Principal
